**The Tech Adept’s Moves**

■ **Universal Programmer:** *(You have this move by default)* When you **make a new piece of equipment**, roll +Dynamic. On a hit you make it. On a 10+, it works and keeps working. On a 7-9, it will only last for the scene. In either case, choose a quirk:

- The device works much more slowly than expected
- The device requires more of a resource than expected
- The device has a side effect when used

□ **Read the Web of Fate:** When you **enter the virtual world to Read the Web of Fate**, roll +Without. On a hit, you can determine the degrees of separation between two objects or people. On a 10+, you can also get a general idea of the path between them.

□ **Ghost in the Machine:** When you **enter the Virtual World physically**, you may bring other willing Mages along, and exit at any terminal you can find.

□ **Things Speak:** When you examine an interesting technological or magical object, roll +Without. On a 10+, you may ask up to 3 of the following questions, on a 7-9, ask 1.

- What strong emotions have been most recently associated with this?
- What’s wrong with this, and how might I fix it?
- How frequently has this been handled?
- Where did this come from?
- How might this be dangerous?
- Who designed this?

□ **Percussive Maintenance:** When you **impose your will on a machine**, roll +Entropic. It works better. On a 10+, tell the MC how. On a 7-9, the MC will tell you how. On a 6-, the MC will tell you how, and why this is terrible for you.

■ When you and another character **exchange a moment of humanity**, they speak to you as if they were an interesting technological or magical object (whether or not you have the move). Treat it as rolling a 10+ and ask up to 3 questions from the list. If you ask more than 1 question, you speak back to them in the same way, and they may ask up to 3 questions of the same list.
