## The Tech Adept's Moves

- Universal Programmer: (You have this move by default) When you make a new piece of equipment, roll +Dynamic. On a hit you make it. On a 10+, it works and keeps working. On a 7-9, it will only last for the scene. In either case, choose a quirk:
  - The device works much more slowly than expected
  - The device requires more of a resource than expected
  - The device has a side effect when used
- □ Read the Web of Fate: When you enter the virtual world to Read the Web of Fate, roll +Without. On a hit, you can determine the degrees of separation between two objects or people. On a 10+, you can also get a general idea of the path between them.
- ☐ **Ghost in the Machine:** When you **enter the Virtual World physically**, you may bring other willing Mages along, and exit at any terminal you can find.
- ☐ Things Speak: When you examine an interesting technological or magical object, roll +Without. On a 10+, you may ask up to 3 of the following questions, on a 7-9, ask 1.
  - What strong emotions have been most recently associated with this?
  - What's wrong with this, and how might I fix it?
  - How frequently has this been handled?
  - Where did this come from?
  - How might this be dangerous?
  - Who designed this?
- □ Percussive Maintenance: When you Impose Your Will on a machine, roll +Entropic. It works better. On a 10+, tell the MC how. On a 7-9, the MC will tell you how. On a 6-, the MC will tell you how, and why this is terrible for you.

■ When you and another character exchange a moment of humanity, they speak to you as if they were an interesting technological or magical object (whether or not you have the move). Treat it as rolling a 10+ and ask up to 3 questions from the list. If you ask more than 1 question, you speak back to them in the same way, and they may ask up to 3 questions of the same list.
