The Tech Adept

Most people think magic and technology are incompatible, but you know better. You prefer to think of them as peanut butter and chocolate. And you’re the sweet sweet mix.

Starting Gear:

- 2 Savings
- Choose a signature toolset: My souped-up computer; a set of scripts and daemons that I can reach from anywhere with an internet connection; All the meters, connectors, and components I could need.
- Choose something you’ve made: A full home automation system; An Internet watchdog to keep you informed; A weapon using Consensus-defying energies.
- Things you’ve made:

The Tech Adept

- When you and another character **exchange a moment of humanity**, they speak to you as if they were an interesting technological or magical object (whether or not you have the move). Treat it as rolling a 10+ and ask up to 3 questions from the list. If you ask more than 1 question, you speak back to them in the same way, and they may ask up to 3 questions of the same list.
